 Please note that DPM's maintenance responsibility upstream of the 405 frwy along Ballona Creek ends on La Salle Avenue, and from Washington Blvd. to Cochran, which is a concrete-lined channel. Overland Avenue is a few blocks south of La Salle, and have no PEH issues at this moment
 The COE has maintenance responsibility from La Salle Avenue to Washington Blvd. Pls. coordinate directly with Eric and Richard of the COE for any PEH encampment cleanup within this channel reach, if they plan to do one

                       Good morning. I understand both LAHSA and LASAN confirmed for 4/17 cleanup downstream of the 405 Frwy along Ball
 Per our big meeting with the Sheriff, LANSA, our County (EQ, County Counsel, and my admin, we are changing our protocol. One of the major changes is that we cannot start the 14-day posting until LANSA has notified us that they have completed their outreach and coordinated with our Contractor.
                      With that said. I need to check with our forests and our contractor their new posting & cleanup schedule downstream of the 40% few and will keep you all posted
                      NOTE: On 4/17, we are still confirmed to start the encampment cleanup from Overland Avenue to the 405 Fwy

                      Awesome - thanks Renee
                      And Victor - it will just be Ballona, not Centinela. We may start addressing that in the next round
                      All - we are confirmed for 4/17. I will send out an invite today
                                           As mentioned, if there are no present encampments on the bike path itself LASAN will have West HOPE there in case anyone moves over to our jurisdiction

  PBH folks displaced during the Feb. 15 Caltrans cleanup behind the 485 Fwy moved to our r/w across from the McCollum Avenue and some other locations. Unfortunately, our crews were on their regular day off when we received the notice and were not able to be present at that time. By Feb. 19, the encampenent grew much bigger. There is severe shortage of shelter beds, affordable housing units and perament supportive housing units across the City and the County of Los Angeles, so outreach teams really don't rise of alternative locations for people to sleep at this time. Therefore, I don't think our intention with these cleam-ups should be to peramently displace folks from the areas where they have been sleeping. Rather, I understood our intention to be about the community by clearing trash and binbarardous materials that may accumulate when people do not have a place to dispose of their trash or relieve themselves. If we are trying to prevent folks from returning to the Creek, that will displace them into the ites, which I do not think should be our intention.
